ENVIRONMENTAL POLICY | G INTER

Provide transportation and global mobility services, preserving and generating sustainability actions to the environment.

In addition, G Inter undertakes to:

	Promote the environmental awareness of its employees.	
	Recycle, reuse, and reduce environmental aspects and impacts of packages.	
	Monitor and control opacity of the fleet in legally acceptable levels.	
	Perform the sorting and disposal of residues according to its environmental classification.	
	Develop actions of reduction and conscious consumption of water.	
	Promote the reduction of electrical power consumption.	
	Use non-toxic substances to perform the fumigation of wood and pest control which do not harm the atmosphere and the soil.	
	Commitment with the current environmental legislation.
